PROFILE

I am a passionate Web Developer specializing in React.js, Next.js, and the MERN stack. I build responsive, user-friendly websites using modern tools like Tailwind CSS and Shadcn UI, with a focus on intuitive frontend UI design. My portfolio includes 5 full-stack projects featuring dynamic data handling with MongoDB and Sanity. Proficient in Git, I maintain an efficient and collaborative development workflow. My goal is to build good web experiences that are both impactful and user-friendly.

TECHNICAL SKILLS

- **Frontend Development** - HTML, CSS, JS, TS, React.js, Next.js, Bootstrap, Tailwind CSS, Shadcn UI
- **Backend Development** - MERN Stack, MongoDB, MongoDB Atlas, Sanity.io
- **Version Control & Deployment** - Git, GitHub, Vercel

PROJECTS

Vinayak Gore | Portfolio | [LINK](#)

- Developed a responsive web application using Next.js, TypeScript, Aceternity UI, and Tailwind CSS, ensuring a seamless user experience.
- Integrated Sanity CMS for dynamic content management, improving update efficiency by 40%.
- Deployed on Vercel for fast load times, scalability, and streamlined the design process with Aceternity UI, reducing development time by 25%.

Menzy Cart | E-commerce | [LINK](#)

- Built a full-stack web application using Next.js and TypeScript, featuring dynamic product management powered by Sanity and state management with Redux.
- Designed interface using Shadcn UI and Tailwind CSS, achieving a 30% improvement in load times.
- Enabled real-time product updates for seamless content management.

AI Code Reviewer | [LINK](#)

- Developed an AI-powered web application using Google Gemini AI API to review and enhance code quality for better development practices.
- Built with modern technologies including Next.js 15, TailwindCSS, Shadcn-UI, and integrated features like Markdown support, syntax highlighting, and Axios for API calls.
- Showcasing skills in full-stack development and AI integration.

Stock Manager | [LINK](#)

- A full-stack Inventory Management web application using the MERN stack for efficient stock tracking and management.
- Integrated modern UI libraries like TailwindCSS and Shadcn-UI to create a responsive and user-friendly interface.
- MongoDB Atlas for cloud-based database management.
